

CANADIAN CATTLE IDENTIFICATION AGENCY

APPROVED

CCIA TAGS

THERE ARE 2 WAYS TO KNOW THE TAG IS APPROVED

1

It's Marked With Our Maple Leaf™

2

It Starts With A 124 Number Sequence

*If the tag has both of these markers then the animal is officially tagged.
PLEASE NOTE: The backs of CCIA tags are not always yellow; other colours
are identified with breed-specific programs. Approved tags on animals
originating from the USA will have an 840 number sequence.*
